# "The Abacus Method Mental Calculation!"

### Get to know SoroTouch!

"SoroTouch" utilizes the notion of abacus to provide our students with a new skill to calculate quickly and efficiently using iPad. With both visual and auditory arithmetic training, students gain a strong sense of how numbers work which becomes useful, not only when doing the math, but in practical use through everyday lives. The app combines modern technology and the traditional abacus method and is constantly redeveloping for further improvement. SoroTouch has been awarded the Grand Prize for Japan's e-Learning Award in 2017.

You will be capable of:

- Add/Subtract**  
2-digit 8 numbers
- Multiply**  
3-digit x 1-digit
- Divide**  
4-digit ÷ 1-digit

$$\begin{array}{l} 75+97-16+50+ \\ 38-24+82+78=? \\ 359 \times 9=? \quad 8514 \div 9=? \end{array}$$

I am now good at arithmetics!  
**Rei (6)**

I enjoy learning as if playing games!  
**Takahiro (7)**

## Efficient Training Specialized for Mental Calculation

SoroTouch specializes specifically in training mental calculation. The efficiency allows mastering the skill within a short time period. Start by memorizing the procedures using the "visible mode", which the beads on screen changes color once you tap them. Get used to moving fingertips quickly and accurately, then try doing the same in the "invisible mode", which trains your imaging skills by not showing where you placed the beads. Practice using these two modes everyday to acquire our Abacus Method Mental Calculation.

## Our Secret is to Learn while Having Fun!

Training properly everyday as well as enjoying is the key in improving your skills with SoroTouch. We offer variety of games, friendly characters, and the ranking system to see all the students learning with us ! Besides, the app keeps a detailed history of every student's study record, which allows parents and teachers to understand the strengths and weaknesses of the child.

## Show Your Progress in front of others

Center students come in once a week for a 60min class. We use the center exclusive app in our classes which students compete and cooperate with each other through group activities and completing personal missions through adaptive learning. Teachers announce every student's daily progress for the week to raise their motivation and encourage continuous training. The Relay Game helps students to gain more confidence and gives them the opportunity to improve in actual performance by continuously practicing in front of other students.
